# Project Background

As a first step towards building a sustainable society, the participants were encouraged to plant trees in their institution with active participation from LeasePlan volunteers.

Advit Foundation and LeasePlan India Pvt. Ltd. have been undertaking tree plantation initiatives and green space development programs in underprivileged schools as part of their CSR. In 2016-17, an initiative to build a sustainable society by means of skill upgradation in solar and tree plantation was undertaken. The objective was to reach out to young students with the solar energy technology covering the basics of solar photovoltaic system design, installation and maintenance. As a first step towards building a sustainable society, the participants were encouraged to plant trees in their institution with active participation from LeasePlan volunteers. The target was to reach out to 70 candidates with the Solar Training Program and plant 70 trees spanning 2-3 institutes.

# Project Achievement

The project was implemented in 2 major institutes across Gurgaon district - Industrial Training Institute at Sohna and the Government Polytechnic at Manesar.

- A total of 187 candidates participated in the training program across the two institutes. These are the direct beneficiaries. As each participant is

expected to influence 3 more people, the indirect beneficiaries are more than 500.

- A total of 100 trees have been planted in the 2 institutes. This could result in an annual CO2e reduction of around 2.2 tons.

# Project Summary

The project was initiated at ITI Sohna with a solar training session conducted from 17th October 2016 to 19th October 2016. A total of 117 candidates took part in the training programme. The candidates were taught the basics of solar photovoltaic system design, installation and maintenance. Both classroom and hands-on sessions were conducted. The hands-on sessions were conducted on indigenously developed training kits.

## Glimpses of solar training and tree plantation at ITI Sohna

### Classroom training

### Hands on training

### Tree plantation and Certification

A total of 50 trees were planted at ITI Sohna

S No.	Type of tree	Nos.
1	Chandni	10
2	Tacoma	10
3	Champa	10
4	Mogra	10
5	Ficus	10
<b>TOTAL</b>		<b>50</b>

The next session of solar training was conducted at Government Polytechnic, Manesar on 8th February 2017 in which **70 candidates** participated. The plantation was done on 10th march 2017 with another 50 trees being planted.

## Glimpses of solar training and tree plantation at Government Polytechnic Manesar

### Classroom & Hand on training

### Tree plantation

A total of 50 trees were planted at Government Polytechnic, Manesar

S No.	Type of tree	Nos.
1	Ficus	10
2	Jamun	10
3	Mango	10
4	Guava	5
5	Panda	5
6	Ashoka	5
7	Amaltas	5
	TOTAL	50

# Project Impact

## Environmental Impact

- The candidates have been trained on the basics of solar technology which is a renewable and environment friendly technology.
- 100 trees have been planted which will result in an annual CO2e reduction of 2.2 tons.

## Social & Economic Impact

- The youth has been provided with a valuable skill upgradation which will help them in getting better jobs.
- Candidates who are interested in entrepreneurship can also use the imparted knowledge to setup small rooftop solar power systems.
- Fruiting trees have been planted in the participating institutions which will provide better nutrition to the students.

# Project Sustainability

The sustainability of this program is addressed by providing a hand holding to the students after the training. A database of the candidates (Annexure I) has been created and regular updates on opportunities and internships are sent to the candidates. A social media community page on Facebook has also been created to create a pool of trained candidates where they can get updates as well as share their innovative ideas.

The trees are planted inside the participating institution. The saplings are on an average 1 metre high which increases their chance of survival. The care and maintenance of the trees has been handed over to the institution.

## Annexure I

## List of participants

Signature of Student

# Advit Foundation

## BRIEF PROFILE

Advit Foundation (www.advit.org) is a not for profit development organization, registered in India working for Conservation of Environment Resources and Livelihood Enhancement. Advit is the managing partner for running the Solar Information Centre at The National Institute of Solar Energy, Ministry of New and Renewable Energy, GoI. Advit was the state nodal partner managing the Rajiv Gandhi Renewable Energy Park in Gurgaon for Haryana Government from 2009-2015. Since inception, Advit has sought to conserve environment and empower communities through viable options of environment conservation and sustainable development.

With a vision of promoting approaches to sustainable development Advit's work focuses on improving living/ working conditions through improved environment conditions, promoting environment education and conservation practices. This is undertaken using information and communication systems tools and providing environment education and conservation services. The prime areas of field implementation work include - water conservation, occupational health and safety, energy efficiency, renewable energy promotion and skill development.

Forward linkages are sought through outreach programmes, capacity building and entrepreneurship development. Conservation work is undertaken by identifying local needs, selecting, improving, adopting and developing appropriate implementation plans. Advit operates through the following project areas:

## AWARENESS

Advit strives to generate awareness on the need to educate, provide a platform for learning to all and impart the importance of conserving environment and conserving resources in our everyday life. Activities focus on all section of the society.

## EDUCATION

The vision is to create and nurture a learning culture that believes in and breathes change through education. Through change we look towards the infinite possibilities that can be created for the positive development of children and adults. Advit designs and implements environmental training programmes pertinent to:

- Skill development and undertaking village development models that help in livelihood enhancement among communities.
- Environment education in schools and other educational institutes
- Facilitating environment compliance in industries - Trainings on occupational health and safety, safe chemical handling and disposal, water conservation models, energy audits, industry production process documentation and resource conservation in processes.
- Information dissemination on energy efficiency, solar installations and waste management.

### CONSERVATION

The programme highlights and suggests alternatives that can help address the challenges of resource conservation. The need for intervention and the alternatives that would improve resource management and development activities are sought. These include implementation of projects in water conservation, waste management and energy efficiency.

### AWARDS AND EMPANELMENT

- Advit Foundation is empaneled with TISS CSR Hub and PCRA
- Advit is empaneled with the National CSR Hub of the Indian Institute of Corporate Affairs, MCA.
- Awarded the first CII beyond the Fence Project award for an industry in Rajasthan in 2009.
- Awarded the Impact Award for Skill Development at the Impact Conclave by Sambodhi in partnership with Bill and Melinda gates Foundation, SIDBI, YES Bank in 2016.

Advit was the Managing Partner running the State Level Rajiv Gandhi Renewable Energy Park ([www.energycentre.in](http://www.energycentre.in)) at Gurgaon, set up by HAREDA (Haryana Renewable Energy Development Agency) from 2009-2015.

Is the Managing Partner of National Institute of Solar Energy running the Solar Information Centre set up by the Ministry of New and Renewable Energy, Govt. of India.

Advit is a training partner with the Electronics Sector Skills Council of India (ESSCI) and manages the Centre of Excellence on Solar setup by ESSCI at NISE.

Advit is also a training partner with HARTRON (Haryana State Electronics Development Corporation Ltd.) for Solar Electronics and has setup a Solar Lab in HARTRON Gurgaon.

### A few glimpses of Advit's work and achievement:

- Designed and constructed 14 check dams in villages in Phagi district near Jaipur, Rajasthan. Supported by IKEA, Coca Cola Foundation, Pernod Ricard India, CHOICE and BHEL.
- Implementing Solar home lighting projects in rural areas around Jaipur and Gurgaon targeting more than 2500 households.
- Undertaking trainings on Solar Electrical Training with certification with Rural Electrification Corporation Ltd, Ministry of New and Renewable Energy, Govt of India and major companies. Advit has trained more than 1500 candidates in the basics of Solar Photovoltaics.
- Distributed energy efficient stoves across 100 households in the villages in Phagi.
- Set up education and vocational skill up gradation training center at Village Ghata, District Gurgaon. Supported by Monsoon Accessorize Trust
- Undertaking Safe Chemical Handling trainings for workers of apparel, metal, leather and accessories industries all over India.
- Designated as the training partner for safe chemical management and energy efficiency for H&M.
- Implemented Occupational health and safety trainings for 25 Carpet weaving industries in Panipat, Haryana. Supported by Goodweave UK
- Facilitate industries to comply with environment standards - Undertake energy efficiency trainings, audits and other resource conservation methods for various industrial processes.
- Implemented roof top rain water harvesting for buildings. Designed and constructed 3 large models for institutions in Gurgaon. Supported by Coca Cola.
- Prepared guide book on Energy efficiency and Carbon responsibility for apparel industries – Knowledge book. Supported by GIZ
- Implementing an environment education programme for schools - Prakriti Eco School programme. Supported by IKEA, Lease Plan, Yum foods
- Implemented a Village Development Programme for NABARD at village Meoka, Haryana.

## ENERGY CENTRE

### Water Centre

- Renewable energy information centre
  1. Rajiv Gandhi renewable energy park, HAREDA (till december 2015)
  2. National institute of solar energy
  3. Solar laboratory of HARTON
- Renewable energy awareness programmes
- Resource efficiency in industry
- Technology demonstration and dissemination

### Eco Initiatives

- Environment education programme
- Green Space development
- Waste management

### Energy Centre

- Watershed development
- Village development through water approach
- Community mobilisation and capacity building
- Roof-top water harvesting

### Centre for Learning

- Safe chemical handling training
- Occupational health and safety training
- Solar electrical training
- Project baseline and impact assessment studies
