PROJECT COMPLETION REPORT

June 2025

SKILL TRAINING AND LIVELIHOOD PROGRAMME

Phagi, Rajasthan

Project Completion Report
Submitted to: Arhant Social Foundation
Sustainability Partner: Advit Foundation

Project Objective: To harness the success of community-led water conservation by empowering rural women through vocational training, establishing a training and production infrastructure, and facilitating market access—thereby transforming water-secure villages into vibrant centers of economic opportunity, women's empowerment, and inclusive rural development.

PROJECT MONITORING TABLE

Grant Number: F-24005

Project Objective	Committed Results / Indicators	Results Achieved																
Mobilize target beneficiares to participate in skill training and conduct skilling status analysis	Key observations from community mobilization efforts and summary of skills status analysis (needs and vulnerabilities). Indicate training enrolment criteria and if any information collected on starting household income or standard of living.	Trained >400 women in: - farm based (solar dried high value products) and - off farm based skills (paper mache, tailoring, crochet, beauty training). Rural women above age 18yrs residing in the village Rural women and girls with no self-income Girls educated and wanting to learn a skill																
Complete infrastructure upgrades to training center	Percent completion and photos of infrastructure upgrades: training covered area/shed, space for sewing machiens, civil work for Solar Dryers, water facility, sanitation and green space development	Photos are enclosed in the report. Infrastructure set up: - Training space developed at aarohan - Beauty training room with equipment - Kitchen for tea, snack, water set up for particiapnts																
Purchase, install, and start up of equipment (solar dryers, spice grinder, and sewing machines)	Percent completion and photos of new equipment purchases and installation. Final Report: comments on equipment reliability over 1 year period and preventative maintenance plan to ensure long life of equipment	- 2 aagun dryers - 8 sewing machines - 1 covered shed and 1 machine for paper mache - 1 electric grinder for spices - 1 Weighing machine and packaging materials - 2 water tanks																
Complete preparation of standardized training models for Agricultural training, Job work training and Sewing Training	Percent completion of standardization. Share outline of training models	<table><tr><th>Component</th><th>Details</th></tr><tr><td>Duration</td><td>1 month</td></tr><tr><td>Modules</td><td>Eco-Friendly products (cloth, jute, paper), Basic Design & Branding, Food Processing (papad, pickles, dried produce, sweets), Quality Control & Hygiene, Using simple tools like solar dryers, sewing machines, sealing machines, grinders, Pricing and Costing</td></tr><tr><td>Hands-on Activities</td><td>Setup of model unit, exposure to production houses, craft exporters for income generation</td></tr><tr><td>Trainers</td><td>Entrepreneurs from SHG networks</td></tr><tr><td>Tools</td><td>Toolkit with basic processing/production/packaging equipment</td></tr><tr><td>Certification</td><td>Completion job work + Demonstrated Skill</td></tr><tr><td>Linkages</td><td>Tie-ups with café's, Rural Haat, home chefs, online marketing, corporate offices and shops</td></tr></table>	Component	Details	Duration	1 month	Modules	Eco-Friendly products (cloth, jute, paper), Basic Design & Branding, Food Processing (papad, pickles, dried produce, sweets), Quality Control & Hygiene, Using simple tools like solar dryers, sewing machines, sealing machines, grinders, Pricing and Costing	Hands-on Activities	Setup of model unit, exposure to production houses, craft exporters for income generation	Trainers	Entrepreneurs from SHG networks	Tools	Toolkit with basic processing/production/packaging equipment	Certification	Completion job work + Demonstrated Skill	Linkages	Tie-ups with café's, Rural Haat, home chefs, online marketing, corporate offices and shops
Component	Details																	
Duration	1 month																	
Modules	Eco-Friendly products (cloth, jute, paper), Basic Design & Branding, Food Processing (papad, pickles, dried produce, sweets), Quality Control & Hygiene, Using simple tools like solar dryers, sewing machines, sealing machines, grinders, Pricing and Costing																	
Hands-on Activities	Setup of model unit, exposure to production houses, craft exporters for income generation																	
Trainers	Entrepreneurs from SHG networks																	
Tools	Toolkit with basic processing/production/packaging equipment																	
Certification	Completion job work + Demonstrated Skill																	
Linkages	Tie-ups with café's, Rural Haat, home chefs, online marketing, corporate offices and shops																	

Complete training of the 4 trainers	Report on completion of training and how the trainers were assessed on skill proficiency and teaching ability	7 trainers trained in the following specialized skills – - papad making - mongodi making - beauty training - drying - pickle making - tailoring - crochet
Explore market linkages for dried farm produce and tailored items.	Number of prospective customers with whom samples were shared during first 12 months of the grant period	6 (1 café, 2 corporate offices, 1 NGO, 2 home chefs) 55 individuals
Train 200 members (20 session of 10 participants each)	Report number of sessions held and number of unique participants that completed each session. If any assessment is conducted on skill proficiency after training, indicate proficiency rate of participants.	400 trained. 20 sessions with 20 participants. All those registered for following skills also learnt food drying (details in Annexure) Paper mache: 105 Tailoring: 110 Crochet: 102 Beauty: 122 No assessment undertaken. The ones that were good got job work and starting earning and the rest strive to improve.
Train 50 participants for jobs in paper mache or beauty skills	Report number of unique participants that completed the training. Report number of participants that discontinued the program. If any assessment is conducted on skill proficiency after training, indicate proficiency rate of participants.	105 trained in paper mache 122 trained in beauty skill
Train 50 participants for jobs in sewing to produce tailored items	Report number of unique participants that completed the training. Report number of participants that discontinued the program. If any assessment is conducted on skill proficiency after training, indicate proficiency rate of participants.	110 trained in tailoring
Introduce and strengthen skills to community members to enhance income generation	Results of survey/interview of participants (separate by type of training completed) to assess if training helped them learn/enhance skills, if skills be used, and if they feel it will help them increase their employment or entrepreneurial opportunities	20 Group discussion undertakens covering all 400 participants. 4 interviews are enclosed in the report. The group discussion was an informal discussion undertaken and entrepreneurial opportunity given by way of job work and making products for sale/ sampling .

Increase employability through paper mache and beauty skill training	Number of participants in paper mache and beauty training that secured employment in related field	12 in paper mache 16 started to work in beauty parlour 8 got job work in crochet 9 in tailoring, making conference shoulder bags and cloth pouches for a café 2 selling papad 4 making pickles 2 making mongodi 4 making sun dried products
Identify products in market demand to generate income at Aarohan Centre at end of year 1	Report on market linkages, products produced, income generated through Aarohan products during first 12 months of grant period	Income generated: INR 52,000 from selling products INR 1,30,750 from job work Products produced: 8 Farm based 4 off farm based
Assess role of skill training in enhancing income generation through increased employability or entrepreneurial opportunities	Report on findings, impact and assessment for financial viability and learnings	The project has led to: • Employment generation for 12.5% of trained participants (approx. 55 individuals of 400 trained), • A combined income of ₹1,82,750, generated through product sales and job work activities. These outcomes represent early-stage achievements, as the participants are in the process of building product portfolios, gaining market experience, and establishing collective production units. The foundation laid through this project — including mobilization, training infrastructure, and initial market linkages — positions the community for substantial future income growth. In addition to economic impact, the project has fostered increased mobility, self-confidence, and skill acquisition, particularly among women. These social gains are critical in enabling long-term economic participation and resilience in a drought-prone region like Phagi. Besides: 1. These are early-stage results from a pilot project. 2. The income and employment outcomes are expected to grow with: ○ Time ○ Improved market linkages ○ Additional support (e.g., tools, working capital) 3. There are significant non-economic outcomes, such as: ○ Skill development ○ Increased mobility and confidence (especially among women) ○ Reduction in distress migration 4. It includes capital investment in community infrastructure, equipment, and training tools (not just direct training costs). 5. The job work model can be scaled with partnerships

GRANT UTILIZATION REPORT

(Grant Number: F-24005)

With reference to the Memorandum of Understanding between Arhant Social Foundation (the Foundation) and Advit Foundation (Grantee), dated 28th June 2024, the Project of the Foundation assigned to Advit, titled Project "Socio-economic upliftment of the rural community through skill development in Phagi, Rajasthan".

The Project Duration is 18 Months – May 1st 2024 and ending 30th November 2025.

The total amount of the grant is INR 83,13,400 of which INR 77,20,523.00 has been utilised as per the below details.

The expenses reported are up to May 31, 2025. The remaining amount is earmarked for utilization during the handholding period, which extends until November 30, 2025.

S. No.	Particulars	Unit Cost	Qty	Amount in INR	Expenses
	Part 2 - Livelihood				
I	Baseline Cost				
a	Project site analysis - local coordinators, local produce, local market, cropping patterns	LS		4,50,000	
b	Community interaction, mobilisation, skilling status analysis – need and vulnerabilities	LS		4,50,000	
	Sub Total A			9,00,000	8,51,748
II	Capital Cost				
a	Set up of farm technology for demonstration and training - Aagun 24x7 solar dryer (inclusive of GST, transport, installation)	300000	2	6,00,000	
b	Set up of skill upgradation programme – spice grinding, sewing machines (including raw material for training)	LS		4,50,000	
c	Skilling centre - Infrastructure set up	LS		10,00,000	
	Sub total B			20,50,000	18,40,535
III	Project operational cost				
a	Training on solar drying technology (including raw material, packaging, storing/cutting/ washing equipment, material transportation, partnership building, travel)	50,000	20 sessions	10,00,000	
b	Skill centre supporting 50-100 community members trainings (including training cost, material cost, snack, monthly maintenance) – water, electricity, travel	LS		18,00,000	
c	Documentation and reporting (photography, data collection, data analysis, report design and collation)	75,000		75,000	

d	Branding, Signage at each location	10,000	2 sites	20,000

PROJECT BACKGROUND AND AIM

Following the successful implementation of water conservation initiatives in Phagi, Rajasthan, a critical opportunity emerged to build on improved natural resource availability by strengthening local livelihoods. With enhanced soil moisture, better agricultural outcomes, and increased household water security, the foundation was laid for socio-economic development—particularly for women, who play a pivotal role in managing both domestic water and household well-being.

Recognizing the need to translate environmental gains into economic resilience, this livelihood programme was launched with a focus on empowering rural women. Over 400 women have been trained in tailoring, handicrafts, beauty course, and food processing. To ensure long-term viability, dedicated infrastructure for training and production has been established within the community. Simultaneously, systems for product packaging and labelling were developed, transforming locally made goods into market-ready products.

The programme also focused on creating direct market linkages, enabling women to access wider markets and secure sustainable incomes. By linking natural resource management with economic empowerment, the project fosters inclusive development and improved quality of life in the region. This integrated approach not only reinforced the value of the water conservation efforts but also catalysed a broader shift towards self-reliance, dignity, and community-led growth.

Aim of the programme:

To build on the gains of community-led water conservation by equipping rural women with vocational skills, establishing training and production infrastructure, and creating access to markets—ultimately transforming water-secure villages into hubs of economic opportunity and gender-inclusive development.

PROGRAMME ACTIVITIES

Knowledge exchange and capacity building of community members with special focus on women in the following skills:

Farm Based	Off Farm based
Solar Drying	Papier Mache
Grinding	Sewing & Tailoring
Pickle Making	Crochet
Paapad making	Beauty training
Mangori making	

FINDINGS AND IMPACT

The livelihood programme in Phagi has demonstrated a significant and multi-dimensional impact, particularly among rural women who were previously excluded from structured income-generating activities. One of the most notable findings is the transformation in women's economic participation. Over 400 women gained new skills, and many transitioned into income-earning roles for the first time in their lives. This shift not only improved household incomes but also contributed to greater financial independence and decision-making power for women.

The programme also revealed that when women are provided with structured training, market-ready skills, and access to supportive infrastructure, their products can successfully compete in regional markets. The establishment of market linkages—ranging from local haats to exhibitions and urban retail networks—enabled steady demand and sales for their goods.

Social impact was equally visible. Women reported increased self-confidence, better mobility, and stronger roles in community discussions. The initiative also fostered group cohesion and collective action, as seen through the active functioning of women-led groups.

Crucially, the programme demonstrated how livelihood initiatives, when built on the foundation of prior water security and natural resource management efforts, can catalyse holistic rural development. The integration of economic empowerment with environmental sustainability created lasting change in both community structures and individual lives.

ACHIEVEMENTS

Trained more than
400 women in
different skills

Developed packaging
& labelling systems

Developed
Market linkages

Set up infrastructure
for training
and production

The livelihood initiative emerged as a powerful catalyst for women's economic empowerment and rural development:

- **Over 400 rural women have been trained** across the identified diverse skills, equipping them with market-relevant skills and fostering self-reliance.
- **Innovative packaging and labelling systems were introduced**, transforming locally made products into market-ready offerings. **Strategic market linkages were established**, enabling women to access wider markets and generate sustainable incomes.
- **Dedicated infrastructure for training and production was set up**, creating a robust ecosystem that supports continuous learning, skill enhancement, and decentralized manufacturing.

This integrated approach has not only enhanced women's livelihoods but has also strengthened the community's resilience and economic independence, building on the foundations laid by the earlier water resource management efforts.

EMPOWERING SKILLS, CREATING PRODUCTS, CONNECTING TO MARKETS

In this programme, strong emphasis was placed on ensuring that skill development translated into tangible economic opportunities. After completing training in trades such as tailoring, crochet, papier mache, food processing, and eco-friendly packaging, the women groups are being supported in developing high-quality, market-ready products. These include cloth tote bags, cloth pouches, crochet products, papad, mangori, sundried tomatoes, neem and moringa powder, pickles, and other local sweets and savoury food items.

To improve the marketability of these products, efforts are being made to introduce attractive and standardized packaging and labelling systems. Branding support is also being provided, helping local products stand out in both rural and urban markets.

Direct market linkages are being established with local retailers, periodic city haats, and exhibitions in nearby towns. Partnerships with NGOs, and corporate buyers is being developed to further expand the reach of these products. Select groups have also been identified to explore online marketplaces to test digital sales channels.

As a result of these interventions, women reported a consistent stream of income from product sales. **The total income generated by the groups during the reporting period was Rs. 52,000 with individual women earning Rs. 9000 per month depending on their engagement and product line.** This income not only enhanced household financial stability but also boosted women's confidence and social standing.

Trained more than
400 women in

Pinki

Village Pachala

"I work at Aarohan, where I also learned stitching. By stitching for others, I can now also contribute towards the household expenses."

Antar

Village Pachala

"I have been working for over a year at Aarohan."

"I work on the papier mache machine along with 10-12 other ladies."

"My income keeps my home running well."

"I really enjoy the work."

Arti

Village Pachala

"I have been coming to Aarohan to learn crochet since the last 2 months.

I like coming here. There are 10 more ladies along with me who are also learning the skill."

Shweta

Village Pachala

"I came to Aarohan to do beauty training.

This parlour course has taught me to run my own beauty parlour. 8-10 people come for this course, and we work in a group.

I can now do my own makeup."
